

SCREENING SYSTEMS

CONCEAL UNSIGHTLY ROOFTOP EQUIPMENT

When building codes or design guidelines call for concealment of unsightly rooftop equipment, a Spinnaker Rooftop Screening System can provide a quick and easy solution, hiding the equipment while maintaining easy access.

- Sliding panel designs, louvered or cladding style
- Safe and easy service access
- Attractive custom appearance
- Standard colors: White, Dark Brown, Cream, Bone White or Gray
- Optional custom color matching available
- Flexible, strong and durable materials
- Economical and affordable
- Wind loading and seismic forces up to 225 mph
- Codes and references: IBC 2012, FBC 2014, UBC, OBC
